

Trouble logging in to the ticketing site ?

If you have trouble buying tickets online, try this.

The online ticketing system is sensitive to the extensions your browser has. Therefore, if you're having trouble completing a transaction, we suggest you try a different browser. For example, if you are using chrome, try firefox or Edge instead. Edge is on most PCs. Firefox can be downloaded here:

<https://www.mozilla.org/en-US/firefox/new/> and is available for MACs.

NOTE: The online ticketing system does not work on cell phones.

If you continue to have problems, call the theatre box office at 251-968-6721.
